

Remedial Classes Report

Session 2023-24

Remedial Classes is a regular practice in Government Degree college Chail-Koti since its inception of the college. Remedial classes are organised to help the students who had either missed their regular classes for some reason or could not get their concepts clear in their regular classes. Teachers from various departments volunteered to take these classes to help out the students in need. The classes were held in three time slots – one in the morning between 9:00 am to 10:00 am, before the college starts, the second in the afternoon from 3:30 pm to 4:30 pm and the third slot was allowed to be chosen by the teachers according to their and their students' convenience for the entire period of remedial classes. Each teacher was given the freedom to schedule a maximum of 10 lectures within the assigned period for remedial classes in the end of session. The duration of over a month ensured even greater flexibility for teachers to fix their classes while taking into consideration the availability of all the interested students. Most of them admitted that these classes helped them immensely in covering up the syllabus that they had missed during regular classes or in understanding concepts and improving their writing skills. These were especially beneficial for those students who were involved with NSS, ECA and Sports and other activities. The response of the students clearly suggested that remedial classes not just helped them in covering up the syllabus that was missed in regular classes but were also helpful in preparing them for exams in terms of conceptual clarity and improving writing skills.
